

Cloud Security Policy Analyzer Report

Risk Score: 70
Security Score: 54

Detected Security Issues

Risk	Problem	Reason
LOW	Read-Only Access	Limited data exposure risk
MEDIUM	Unrestricted S3 Access	Sensitive data storage may be exposed without encryption enforcement
MEDIUM	Missing Encryption Enforcement	S3 objects may be accessed without encryption protection
MEDIUM	Unrestricted S3 Access	Sensitive data storage may be exposed without encryption enforcement

Recommendations

- Review and monitor read-only access periodically.
- Remove redundant duplicate policy rules.
- Remove redundant duplicate policy rules.
- Remove redundant duplicate policy rules.
